BIO-SEA is pleased to present you its newsletter with the latest updates on the company.

**BIO-SEA wins new contracts with the French Piriou shipyard**

The only French ballast water treatment manufacturer BIO-SEA will be delivering the **Piriou shipyard** from Concarneau – France, with 3 new **BIO-SEA90 BWT systems**. They will be installed on the BSAH and BHO2M vessels, to be delivered by Piriou to the French Navy and for the latest to Morocco.

**BIO-SEA** has been cooperating closely with a great number of partners, including the **Piriou shipyard**, in order to provide modular, reliable, innovative and energy saving systems, efficient in all water qualities.

**BIO-SEA and its partner DAMEN wins a new contract**

The French ballast water treatment manufacturer BIO-SEA and its Dutch partner **DAMEN** have just won a new contract for a retrofit system for a Mega Yacht. The **BIO-SEA90** system will be installed on the boat. **BIO-SEA** is indeed one of the Dutch group’s worldwide suppliers for their One Stop BWT Retrofitting Service.
BIO-SEA has equipped many vessels, with reliable, innovative, modular and cost efficient retrofit UV based systems. The BIO-SEA 30, 60 and 90 range is the best solution for ballast water treatment, perfectly adapted to vessels with small pump capacities.

About BIO-SEA by BIO-UV
The sole and unique French ballast water treatment specialist BIO-UV designs and manufactures the complete ballast water treatment system BIO-SEA, which combines mechanical filtration and high UV dose disinfection, without any chemical treatment whatsoever, made with high marine quality components.

BIO-UV is an innovative industrial company created in May 2000. The BIO-UV Group designs, manufactures and markets systems and concepts of disinfection by ultraviolet light (UV-C) adapted to a large number of applications. The BIO-SEA products are IMO type approved, USCG AMS accepted and USCG type approval currently in process.

BIO-SEA has equipped many vessels, with reliable, innovative, modular and cost efficient solutions.
